Professional Summary

B.Sc. Networking student with hands-on experience deploying AWS cloud infrastructure and supporting IT systems. Built secure, scalable environments using Amazon EC2, ALB, VPC, S3, and IAM. Delivered 99% system uptime on a live AWS project and cut server downtime by 30%. Strong foundation in TCP/IP, DNS, DHCP, Linux, and Python, supported by cybersecurity and data analytics work through Deloitte virtual simulations.

Education

Bachelor of Science in Networking (Cloud Computing)	<i>Expected: May 2027</i>
Subbalakshmi Lakshmipathy College of Science, Madurai	GPA: 8.4 / 10.0
Higher Secondary Certificate (HSC)	<i>2023</i>
C.E.O.A Matriculation Hr. Sec. School, Madurai	

Technical Skills

Cloud Platforms	Amazon Web Services – EC2, S3, ALB, VPC, IAM, Auto Scaling, Health Checks; Microsoft Azure – Compute, Networking, Storage; Google Cloud Platform (Basics)
Networking	TCP/IP, DNS, DHCP, VPN, OSI Model, IP Addressing, Subnetting, VPC Peering, Routing Tables, Network ACLs
Operating Systems	Linux (Ubuntu, Kali Linux), Windows 10/11, macOS
Security	Vulnerability Assessment, Incident Response, Threat Analysis, Nmap, Burp Suite, Wireshark, Cisco Packet Tracer
Troubleshooting	Root Cause Analysis, Log Analysis, System Debugging, SLA Awareness, Performance Monitoring
Programming	Python (Scripting, Automation), Bash (Shell Scripting, Automation)
DevOps & Tools	Git, GitHub, Postman, Remote Desktop Protocol (RDP), TeamViewer, MS Office
Support & CRM	Freshdesk, Zendesk, JIRA Service Desk, Ticketing Systems, Escalation Handling, First Call Resolution (FCR)
Languages	Tamil (Native), English (Professional)

Professional Experience

Billing and Inventory Associate	<i>September 2024 – Present (Part-Time)</i>
<i>Sapna Garments, Madurai</i>	
- Processed 50+ daily billing transactions covering payments, cash reconciliation, and POS closing with 100% accuracy over 18 months. - Monitored inventory across 5+ product categories and coordinated restocking, cutting stockout incidents by 40%. - Submitted daily sales and stock reports to management, ensuring 100% transaction coverage with zero discrepancies each day.	

Projects

- **Scalable Traffic Handling System – Amazon EC2 and Application Load Balancer (ALB)**
 - Deployed a multi-server AWS setup using EC2 and ALB with auto-scaling across **3 availability zones**.
 - Configured VPC, security groups, and IAM roles, reducing unauthorised access attempts by **100%**.
 - Maintained **99% system uptime** and cut response-time incidents by **35%** through continuous monitoring.
- **Hybrid Cloud Network Architecture – AWS and Microsoft Azure**
 - Built a site-to-site VPN across **2 cloud providers**, enabling encrypted data exchange between on-premises and cloud environments.
 - Configured VPC peering, routing tables, and network ACLs, achieving **99% network availability**.
 - Reduced network configuration errors by **60%** by standardising routing rules and creating setup documentation.

Internship Training

Cloud Computing with Web Development

April 2026

Reccsar Pvt. Ltd.

- Studied **3 cloud deployment models** – IaaS, PaaS, and SaaS – with practical hosting examples on live cloud platforms.
- Traced the full development-to-deployment lifecycle of a web application built to handle large-scale traffic on cloud infrastructure.

Online Job Simulations

Deloitte – Data Analytics Job Simulation (Forage)

March 2026

- Examined **6 months** of factory operational data, identifying **3 root causes** of system performance degradation.
- Delivered a structured findings report with steps estimated to improve system reliability by **20%**.

Deloitte – Cybersecurity Job Simulation (Forage)

March 2026

- Assessed **4 simulated enterprise systems** for vulnerabilities across network, access, and application layers.
- Produced incident response documentation covering **5 threat scenarios** using structured industry methodologies.

Certifications

- **AWS Certified Cloud Practitioner (CLF-C02)** – Amazon Web Services *In Progress*
- **Cloud Computing with Web Development** – Reccsar Pvt. Ltd. *April 2026*
- **Linux 100: Fundamentals** – TCM Security *2025*
- **Programming 100: Fundamentals** – TCM Security *2025*

Key Achievements

- Delivered a hybrid cloud VPN network across AWS and Azure with **zero downtime** during the entire setup and handover phase.
- Reduced server response incidents by **35%** on the EC2 load balancing project through live monitoring and fast resolution.
- Completed **2 Deloitte** industry virtual simulations in Data Analytics and Cybersecurity within the same month.
